

LASER HAIR REMOVAL TREATMENTS

We use the Lumenis LightSheer® Desire system, a state-of-the-art 805nm diode laser specially designed to remove unwanted hair faster, with less discomfort and more reliably than other methods, whilst ensuring safety for all skin types.

Treatments using repeated laser pulses target existing hair, creating a direction of energy into the hair follicles that prevent future growth.

Consultation (Required prior to treatment but is refunded on treatment.) **€50.00**
